Phonology and Morphology of Arabic

While many languages have numerous dialects that differ in phonology, the contemporary spoken Arabic language is more properly described as a continuum of varieties. This article deals primarily with Modern Standard Arabic (MSA), which is the standard variety shared by educated speakers throughout Arabic-speaking regions. MSA is used in writing in formal print media and orally in newscasts ...

The phonology and morphology of Arabic | Semantic Scholar

In linguistics, morphology (/ m ɔːr ˈ f ɒ l ə dʒ i /) is the study of words, how they are formed, and their relationship to other words in the same language. It analyzes the structure of words and parts of words, such as stems, root words, prefixes, and suffixes. Morphology also looks at parts of speech, intonation and stress, and the ways context can change a word's pronunciation and ...

A Study of Arabic Phonology by Joyce Akesson, Paperback ...

Phonology (in the form of short vowels) affects reading accuracy as well as reading comprehension, regardless of reading level, age, material and reading conditions. Initial visual-orthographic processing identifies the morphology (i.e. the triliteral/quadriliteral roots of Arabic words) which then enables access to the mental lexicon.
