EZNEC-ARRL included with the Antenna Book's 22nd edition is a special
version of EZNEC 5.0 - its primary purpose is to enable viewing and
analysis of the example antennas included with the Antenna Book. It
operates as a normal EZNEC demo program except when a specially
"signed" EZNEC description file (included on the Antenna Book CD) is
opened. When analyzing a "signed" file, EZNEC-ARRL becomes a fully
functional just like the standard EZNEC software.
