### Brother VX1140 Support

Re-thread the machine following the instructions in your manual and ensure that the foot is raised. The thread should pull through the machine freely with no tension. If there is tension when pulling the thread, then the thread may be unsuitable for machine sewing and should be replaced with machine sewing thread from a reputable brand.

Brother sewing machine serial numbers are coded to indicate the manufacture date of the machine. The letter and first number indicate the month and last digit of the year the machine was made. Because the first number in the serial number could correspond to a year in any decade, you need help from Brother International Corp., the machine's manufacturer, to determine when the machine was made ...
