made astrology respectable, and by the time Ptolemy wrote his textbook the Tetrabiblos, in the second century AD, the main lines of astrological practice as it is known today had already been laid down. In future centuries astrology shifted to Islam only to return to the West in medieval times where it flourished until the shift of ideas during the Renaissance.

The architecture of the human language faculty has been one of the main foci of the linguistic research of the last half century. This branch of linguistics, broadly known as Generative Grammar, is concerned with the formulation of explanatory formal accounts of linguistic phenomena with the ulterior goal of gaining insight into the properties of the 'language organ'. The series comprises high quality monographs and collected volumes that address such issues. The topics in this series range from phonology to semantics, from syntax to information structure, from mathematical linguistics to studies of the lexicon.

Engineering. Retaining the style of its previous editions, this text presents the theory, computational aspects, and applications of vibrations in as simple a manner as possible. With an emphasis on computer techniques of analysis, it gives expanded explanations of the fundamentals, focusing on physical significance and interpretation that build upon students' previous experience. Each self-contained topic fully explains all concepts and presents the derivations with complete details. Numerous examples and problems illustrate principles and concepts.

expressive medium in Somali culture and politics, that is, oral poetry, in its ideological and discursive dimension. Oral poetry has a formidable impact on Somali society and its internal dynamics. "Somali Oral Poetry" is the first critical discourse analysis of the connection between oral poetry and politics in Somalia. The book brings out contradictions and conflicts between the ways of thinking of a society structured in clans and a rightful claim for nationhood and the state of law. In addition, it highlights the difficulty the society finds in renouncing clan mentality that requires loyalty to the clan rather than to the State. The present volume illuminates, through the critical analysis of the Deelley poetry debate, the circumstances and issues that preceded the civil war in Somalia. Therefore, the book is of particular interest for its original explanation and understanding of the
