proving especially troublesome. While reliability can often be a major headache for owners, it hasn't stopped the car from being eternally popular. Of all the engines available, it's the TD4 that's the pick; the 2.5 is thirsty, the 1.8 is gutless and the 2.0Di is coarse.

Land Rover Freelander. Land Rovers plan to build a small (yet still capable) SUV first began back in the late 80s. The idea was to attract younger buyers by offering a Land Rover model for every milestone in a person's life, similar to BMW. In 1994 the Rover Group got bought out by BMW, which meant a larger budget for the CB40 project.

Land Rover Owner Information
The BMW 2.0 litre TD4 diesel engine has a timing chain rather than a belt and has proved to be pretty bullet proof and is the power plant of choice for many Freelander owners. However, problems with the TD4 include difficult starting, poor performance and rough idling, problems that can point to issues with the fuel pressure regulator/sensor, faulty injectors and/or incorrect turbo pressure.
