Structured trade and commodity finance. This is a specialised activity dedicated to the financing of high-value supply chains. Every loan is tailor-made to client, transaction and region. They tend to be more long-term – sometimes up to five years. Structured trade finance usually refers to the financing of cross-border commodity flows (and as such is most commonly known as structured commodity finance).

Structured trade and commodity finance | Global Trade ...

International financial transactions are based on several financing philosophies, whose application is affected by the course of economic growth and development within an individual national economy. This is demonstrated by the evolution of the financing technique known as International structured trade & commodity finance (STCF). STCF is " cross-border trade finance in emerging markets where the intention is to get repaid by the liquidation of a flow of commodities."

Structured trade and commodity finance - Wikipedia

IFC's Structured Trade and Commodity Finance initiative (STCF) is a collaborative solution to maintain and extend the availability of financing for the trade of critical commodities in emerging markets. STCF is a flexible instrument allowing IFC to engage in the most challenging markets with systemic financing gaps in cooperation with private sector banking partners.

Structured Trade Commodity Finance

Structured commodity finance (SCF) as covered by Trade Finance is split into three main commodity groups: metals & mining , energy, and soft commodities (agricultural crops). SCF is a financing technique utilised by a number of different companies, primarily producers, trading houses and lenders. Commodity producers stand to benefit from SCF by receiving financing to ensure cash flow is available for maximum output with the intention of repaying the loan once exports begin.
