Asimov's Robot and Foundation series actually converge and there is a recommended order for them all. An amazing collection of books but this one is second in line of them all. It is possible to read the 3 original Foundation books before the robot books but chronologically the robot books start much earlier-before the origins of humanity on ...

This trilogy is an incredibly well thought out series concerning robots and the future of earth. It's impressive that Asimov's ideas about robots as presented in the first book existed all the way back in the early fifties. This series is in the same universe as I, Robot and the Foundation trilogy.

Solaria is a planet in Isaac Asimov's Foundation series and Robot series.. Description. Inhabited by Spacer descendants, Solaria is the fiftieth and last Spacer world settled in the first wave of interstellar settlement. It was occupied from approximately 4627 AD by inhabitants of the neighboring world Nexon, originally for summer homes.
