Science is said to be suffering a reproducibility crisis caused by many biases. How common are these problems, across the wide diversity of research fields? We probed for multiple bias-related patterns in a large random sample of meta-analyses taken from all disciplines. The magnitude of these biases varied widely across fields and was on average relatively small.

Method 1 of 2: Taking a Personality Assessment. Ask your hiring manager to give you an idea of what to expect. Since these tests reveal personality traits, there are no "right" answers to the questions. However, your manager should be able to tell you the basic concepts you can expect to encounter on the assessment.
